

Proteus Awarded Security Risk Assessment Project for North Sound BHO Provider Network

HAYDEN, ID – January 20, 2017 – Proteus Consulting, the Northwest’s trusted provider of Health Insurance Portability and Accountability Act (HIPAA) Security Rule services, announces their contract award to assess the North Sound Behavioral Health Organization (BHO) Provider Network. Proteus previously completed a HIPAA Security Rule project for North Sound BHO and was approached in late-2016 to expand their professional services relationship. The new contract is focused on evaluating the Provider Network’s administrative, physical, technical, and organizational electronic protected health information (ePHI) risks.

Proteus Consulting’s HIPAA Security Rule expertise and communications skills will identify fully referenced ePHI risks and recommend straightforward solutions. This project expands Proteus Consulting’s marketplace reach beyond the single hospital or community provider group and demonstrates the capacity to service large provider or hospital networks. Proteus is committed to providing healthcare industry Covered Entities and Business Associates superior Security Rule help.

About North Sound BHO Provider Network

Spanning five counties in Northwest Washington State, the North Sound BHO Provider Network serves their communities by improving the mental health and well-being of individuals and families in their communities. The network provides assessment, individual, family, and group treatment mental health services through outpatient clinics and the main North Sound BHO office, located in Mount Vernon, WA.

About Proteus Consulting

Proteus Consulting focuses exclusively on the HIPAA Security Rule’s standards and implementation specifications as they relate to ePHI risk and compliance. They perform HIPAA security risks analyses, provide compliance and gap analysis strategies, develop Security Rule policies and procedures, and train workforces ranging from a dozen to more than 100 employees. Since its beginning in 2013, Proteus has built their reputation making HIPAA requirements plainly understandable and providing value beyond any single project.
